Radnor is a leading independent test, evaluation and research and development facility, with core competencies focused around weapons, ordnance, munitions and explosives

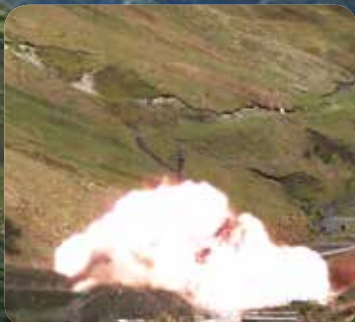

An aerial photograph of a vast, rolling landscape. The foreground and middle ground are dominated by vibrant green hills and valleys, with some areas appearing slightly more brownish or yellow, possibly due to different vegetation or soil types. The terrain is undulating, with gentle slopes and deep, narrow valleys. In the distance, a range of low mountains or hills stretches across the horizon under a sky filled with large, white, fluffy clouds. The overall scene is bright and expansive, suggesting a rural or agricultural setting.

Test, Evaluation and Research

**Radnor has the following
licences and accreditations:**

- Health & Safety explosive manufacturing and storage licence with a maximum NEQ of 75kg HT1
- BS EN ISO 9001:2008
- BS EN ISO 14001:2004
- UK MoD Defence Ordnance Safety Group (DOSG) approved independent test house
- Defence Science and Technology Laboratory (DSTL) approved range facility
- Member of the hazard test working group chaired by DOSG
- MoD UK approved range for Live Fire and Tactical Training (LFTT) and demolition training
- Radnor is an approved UK MoD supplier

Test and Evaluation

- Insensitive Munitions
- UN Series testing
- Bespoke test protocols
- Instrumented weapons and vehicle mounted weapons testing and proofing
- Unmanned Aerial Systems test and evaluation

Blast and Ballistics

- Armoured vehicle (military & civilian) fully instrumented testing and certification to all international standards
- Material structures and fully engineered armoured structures
- Explosive composition testing

Explosive Processing

- Explosive manufacturing, processing and pressing facilities
- Including:
 - Planetary mixer
 - Horizontal incorporator
 - Acoustic mixer (LabRAM II)
- Laboratory
- Band saw

Radnor Range is easily accessible from the M5 and is within easy reach of Bristol and Birmingham. Situated on a 500 hectare site, set within a discrete, steeply sided valley (300m elevations). Our offices are situated in nearby Presteigne.

Offering maximum flexibility and value, the range is open during normal office hours which can be extended to evenings, nights and weekend.

Radnor is an MoD UK approved test house

“Definition: Test and Evaluation (T&E) is the process by which a system or components are compared against requirements and specifications through testing. The results are evaluated to assess progress of design, performance, supportability...”
